Profile

Computer Engineer specialized in Full-Stack web development, Cloud, and DevOps. Passionate about building scalable applications, automating deployments, and improving system reliability.

Education

ESPRIT - Ecole Supérieure Privée d'Ingénierie et de Technologie <i>Engineering Degree in Computer Science – Cloud & DevOps</i>	2022 - 2025
ESSECT - Ecole Supérieure des Sciences Economiques et Commerciales de Tunis <i>Bachelor's Degree in Management Informatics – E-Business</i>	2019 - 2022

Skills

Cloud and DevOps: Docker, Kubernetes, Prometheus, Grafana, Jenkins, GitHub Actions, Terraform, Azure, Vault, Robusta, Kyverno, Nexus, OpenStack, Ansible
Web Development: Angular, Spring Boot, React, Node.js, Symfony, .NET
Programming: Java, Python **Network & Systems:** Linux, Cisco

Experience

Technical Lead – Speegar	<i>October 2025 – Present</i>
• Technical mentoring and support for developers (Java, Spring Boot, Angular, DevOps) • Conducting technical interviews, code reviews, and validating architectural decisions • Direct contribution to backend/frontend development and implementation of core features • Design, implementation, and optimization of CI/CD pipelines with multi-environment deployment management	
Angular, Spring Boot & DevOps Trainer and Mentor – Kantra the Bridge	<i>August 2024 – Present</i>
• Training in containerization, CI/CD pipelines, deployment, Infrastructure as Code, monitoring, as well as Java, Spring Boot, and Angular fundamentals • Mentoring and supervising academic and professional projects in web development and DevOps	
Full-Stack Developer & Deployment Engineer – BeeCoders	<i>August 2024 – September 2025</i>
• Deployment of web applications and automation through CI/CD pipelines • Execution of functional and technical testing to ensure release quality • Full-stack development using Spring Boot, Angular, MySQL, and MongoDB	
DevOps Security and Deployment Intern – Keyrus	<i>February – July 2025</i>
• Cluster security hardening using RBAC, Kyverno, Trivy Operator, Nessus, and Vault • CI/CD automation with security and quality tools (Snyk, Gitleaks, Trivy, OWASP ZAP, KubeLinter, ArgoCD) • Design and implementation of a dynamic Helm chart for deploying multiple microservices • Use of Robusta KRR to recommend optimal resource configurations	
Web Development and Deployment Intern – BeeCoders	<i>July – September 2024</i>
• Development of a web application using Spring Boot and Angular	

- Creation of a dashboard using React and Express.js to visualize GitHub and Jira data
- CI/CD implementation with GitHub Actions and deployment on Azure Kubernetes Service (AKS)

Web Development Intern – ArabSoft

January 2022 – March 2022

- Development of an administrative web application with dashboards for the National Alcohol Authority
- Full-stack development using React, Angular, Express.js (Node.js), and MongoDB

Certifications

Microsoft Azure Fundamentals (AZ-900)

Microsoft – Coursera (October 2024)

Cisco Certified Network Associate (CCNA)

Cisco (July 2023)
